ABOUT ME

UI/UX Designer with hands-on experience in redesigning mobile application interfaces, building Design Systems, creating interactive prototypes, and preparing UI/UX specifications for development handoff. With a background in Computer Networks and Data Communications, I am interested in creating intuitive digital products that balance user needs, business requirements, and technical constraints. Detail-oriented, collaborative, and eager to grow in UI/UX and product design.

EXPERIENCE

Wisdom Engineering & Business Solutions

(03/2026 - 06/2026)

UI/UX Designer Intern

- Redesigned Customer and Admin mobile interfaces for the Smart Station electric vehicle charging platform.
- Optimized user flows, information architecture, and interaction patterns based on existing UI/UX limitations and business requirements.
- Built a reusable Figma Design System and created high-fidelity screens and interactive prototypes for charging, reservation, payment, and administrative workflows.
- Collaborated with BA and developers to validate design feasibility and prepare UI/UX Specification Documents for developer handoff.

PROJECTS

Music Streaming Website

- Designed a premium Dark Mode interface and Design System using Glassmorphism, emerald accents, and Figma Variants for core components.
- Optimized content hierarchy for music discovery, ensuring intuitive access to trending tracks, artist radios, and personalized playlists.
- Developed high-fidelity prototypes with Smart Animate to simulate seamless transitions and interactive playback flows.

English Learning Platform

- Conducted user research to define core learning flows, focusing on optimizing the experience for Flashcards, multi-format Quizzes, and personalized Progress Tracking.
- Built a reusable Component Library using Figma Components, Variants, and Properties, maintaining visual consistency across screens and components.
- Designed responsive layouts across Desktop, Tablet, and Mobile breakpoints.
- Developed high-fidelity interactive prototypes in Framer to simulate micro-interactions and validate the feedback experience for learners.

SKILLS

- **UI/UX:** User Flow, Wireframing, Information Architecture, Interaction Design, High-fidelity UI Design, Prototyping, Design System, Accessibility
- **Tools:** Figma (Auto Layout, Components, Variants, Properties), Framer, Adobe Illustrator
- **Collaboration:** UI/UX Specification, Developer Handoff, Design Review, Feedback & Iteration, Trello
- **Technical Background:** HTML, CSS, JavaScript, React, GitHub

EDUCATION

VNUHCM - University of Information Technology (UIT)

(09/2022 - 10/2026)

Current GPA: 3.0/4.0

CERTIFICATIONS

- **VSTEP English** — Level 4 (Overall: 7.0/10), 2026
- **Google UX Design Certificate** — In Progress
